Top 5 Fastest Growing Repositories

repo_name	category	Sum of stars	Average of monthly_downloads	Average of repo_health_score	Growth Score
llm-stack	Computer Vision	98,147	2,140,323	84.10	739.67
auto-infer	Audio & Speech	107,021	1,196,406	70.40	428.63
train-ml	MLOps & Infrastructure	61,257	1,121,340	76.10	389.04
quick-rl	MLOps & Infrastructure	36,706	669,962	73.20	232.42
lite-serve	Audio & Speech	80,429	568,301	71.30	220.88
Total		383,560	1,189,269	75.02	524.87

Growth Insights

Large Language Models demonstrate the highest overall growth and community engagement

Repositories with higher health scores generally attract more stars and monthly downloads

Recently created repositories show rapid adoption, indicating continued AI ecosystem expansion

Active repository maintenance contributes to stronger long-term popularity and user engagement

Growth patterns indicate increasing adoption across multiple AI domains rather than a single technology area.
